## **CERTIFICATE OF ANALYSIS**

PRODUCT NAME & SKU: OIL028 – Jojoba Oil

| Product Name: | Jojoba Oil Golden |               |          |
|---------------|-------------------|---------------|----------|
| Customer:     | Soap Supplier     | Customer Ref: |          |
| Date:         | 07/12/2023        | Batch no:     | 46209-01 |

| Analytical Test                     | Specification  | Result    |
|-------------------------------------|--|-----------|
| Appearance                          | Clear bright liquid, pale yellow to golden yellow    | Conforms  |
| Odour                               | Characteristic - free from rancid and foreign odours | Conforms  |
| Specific Gravity @ 20°C (g/ml)      | 0.860 - 0.875  | 0.862     |
| Refractive Index @ 40°C             | 1.450 - 1.470  | 1.460     |
| Acid value (mgKOH/g)                | ≤ 5.0  | 0.40      |
| Iodine value (cgl <sub>2</sub> /gr) | 80.0 - 92.0  | 81.80     |
| Saponification value (mgKOH/g)      | 85.0 - 98.0  | 94.10     |
| Peroxide value (Meq/kg)             | ≤ 10.0 (at time of production analysis)              | 1.0       |
| Unsaponifiable Matter (%)           | 45.0 – 55.0  | 52.80     |
| Fatty Acid Profile (%):             |  |           |
| C 16:0 Palmitic Acid                | ≤ 3.0  | 1.16      |
| C 16:1 Palmitoleic Acid             | ≤ 1.0  | 0.10      |
| C 18:1 Oleic Acid                   | 5.0 - 15.0   | 11.33     |
| C 20:1 Gadoleic Acid                | 65.0 - 80.0  | 69.56     |
| C 22:1 Erucic Acid                  | 10.0 - 22.0  | 15.45     |
| Packing Date:                       |  | 12 / 2023 |
| Recommended re-test date:           |  | 06 / 2025 |
| Commercial Expiry date:             |  | 12 / 2025 |

Storage

Shelf life of this product is influenced by many conditions of which temperature, exposure to light / air and general good storage are the major factors. Material stored in adverse conditions may deteriorate much faster. Our suggested "Re-test" date shown on this certificate reflects a minimum period in which we would expect product to remain in good usable conditions if stored as recommended. Thereafter its continued shelf life may be very much longer and we advise re-test at he indicated date and then every 3-6 months up to a suggested commercial expiry date as shown below. The expiry date is subjective and should be controlled by QC/QA. Typical indicators of re-test failure would be changes in organoleptic properties (clarity / colour / sediment / haze / off odour etc) Such changes may be gradual and slight and the commercial expiry date is intended to reflect a viable maximum proposal subject to earlier re-test approvals
