The commonly accepted detection limit is 10 ppm so a concentration represented by "-" corresponds to < 10 ppm. The information contained herein is to the best of our knowledge, true and accurate at the time it is given.

We inform you that following the publication of the Regulation on the Fragrance allergens in cosmetic products 2023/1545, the information provided below is not up to date with all information from our ingredients suppliers. This is a working progress in collaboration with our suppliers and will be completed in a timely manner in line with the transitional arrangements.

Therefore the present certificate is based on our actual knowledge on the presence of the extended allergens in our ingredients, and this information could be revised later.
