04. FIRST AID MEASURES

4.1 Description of first aid measures	
General Information:	Industrial Field: - In case of accident of pressurised industrial pipes, any chemical substance can be accidentally absorbed into skin, even without external damage. In the event of this situation, it is necessary to carry the injured person to medical attention immediately.
Inhalation	In presence of high concentration of vapours, provide plenty of fresh air. Remove to fresh air immediately and keep in a position comfortable for breathing. If discomfort occurs/continues, seek medical attention.
Ingestion	Do NOT induce vomiting without medical advice. Seek medical attention immediately.
Skin Contact	Remove contaminated clothing and wash before reuse. Wash skin with soap and water. If discomfort occurs/continues seek medical attention.
Eye Contact	Rinse with plenty of clean water immediately for a minimum of fifteen minutes. Ensure to rinse underneath eyelids. If safe to do so, remove contact lenses and continue to rinse. If discomfort occurs/continues, seek medical attention.

05. FIRE-FIGHTING MEASURES

5.1 Extinguishing Media

Suitable extinguishing media:

- Foam
- Carbon Dioxide
- Sand
- Carbon Dioxide

Unsuitable Extinguishing Media:

- Water Jet

5.2 Special hazards arising from the product

In the event of an incomplete combustion; hazardous gases may be produced including carbon dioxide and carbon monoxide. Combustion gases of organic materials must in principle be graded as inhalation poisons. Combustion produces caustic fumes. Vapours are heavier than air and may spread along floors.

5.3 Advice for firefighters

Use self-contained respiratory equipment and appropriate clothing at all times. Safely remove containers from close proximity to the fire and cool the outside of the container carefully with water. Block run-off from the fire or extinguishing media used. Collect any extinguishing media that has been used, do not allow it to enter drains or environment. Keep people at a safe distance, upwind of the fire.

06. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

No additional data

6.2 Environmental Precautions

Prevent further leakage or spillage. Do not discharge product into the aquatic environment without pre-treatment.

6.3 Methods and material for containment and cleaning up.

Stop the flow of material, if possible. Contain and collect spilled material, where this is possible. Soak up with inert absorbent material. Keep in suitable, closed containers for disposal. Dispose of in accordance with local regulations. If liquid has been spilt in large quantities clean up promptly by scoop or vacuum. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
